REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a process as claimed in which the high boiling feedstock is contacted with the soluble quaternary ammonium salt containing sulfate or bisulfate anion and the immiscible aqueous phase to oxidize the sulfur and nitrogen compounds, separating the reaction mixture into an organic liquid and an aqueous phase, and then treating the organic liquid with the at least one immiscible liquid to recover a treated organic liquid. As shown in the Gong affidavit of February 17, 2004, the claimed process provides the unexpected benefit of preserving aromatics for lubricity while removing sulfur and nitrogen compounds.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
